I hope @Denis\_Loubet and @RichardGarriott would see this. Ultima 8 Pagan is my all time favorite DOS game and when I found the original model files I had no choice but to render them in a higher res. Just wanted to thank the Origin team for the awesome Ultima games. 🖥️🎮👾

Conceptually pagan is the darkest Ultima. I love the whole idea and atmosphere. But sadly the execution was lacking

Too much focus on the jumpy jumpy platforming. Yeah I know later patch addressed that, but still clear that was the driving design aspect. But conceptually, the idea and setting was cool as hell (literally)

IF we had finished it as planned... it coulda shoulda had a lot of the Diablo feel before Diablo... ah well... I also loved the darker concept and original story, before we cut it up.

En respuesta a @RichardGarriott @Arethrid y @Denis\_Loubet The Cube, the Sphere, and the Tetrahedron are symbols of the Guardian's evil.

That's Origin System's idea of subtle. ;-)
